

Public Schools Melbourne – Promotional DVD Transcript

Victoria is a wonderful state in which to live.

It offers an enormous range of landscapes, beautiful beaches, unique wildlife, wonderful national parks, great regional cities, an enormous range of sight seeing opportunities, including the world famous, great ocean road.

I reckon Melbourne's really good, because it's quite, you get a really quiet life. It's a wide place, you get a lot of space.

From what I have heard from many people, they say that Melbourne is one of the best places for education. That's why I chose here.

Central to all education is the VCE, Victorian certificate of education. This is a world renowned certificate, which opens doors to every university.

After I finish my high school, I would like to go to Melbourne university and study maybe engineering.

I am very happy to continue my study in Australia.

In our government schools, we have a wonderful multicultural mix of students.

I get to meet most of the international students, we get to go out with them a few times and I teach them about the Victorian lifestyle, the Australian lifestyle.

And we get to know a bit about their culture as well. It's a really great opportunity and really fun.

International students are encouraged to participate in the daily life of schools. They will have opportunities to be involved in musicals such as Eureka, into drama, into artistic displays and arts exhibitions, into concerts into orchestras, whatever they would like to be involved in there will be an opportunity for them to do so.

I do school from 8 to 1 everyday and I play tennis from 1 -4. It's a very good facility, there are lots of courts and the coaches are good. I am working hard, it's good, I like it.

Melbourne is very good to study, because it has modern equipment to support my studying.

We know and we consider government school teachers to be amongst the best in the world.

They are very helpful, if you have any questions or anything, even though it's not about study you can just talk to them

Homestay families looking after Melbourne international students, provide a warm, friendly and safe environment.

We decided to try and have a couple of international homestay students stay with us.

For the week before I was really excited, really eager, really keen to meet them because its just like having another brother.

Our children benefit a lot from having overseas students coming and staying with us, they become like brother and sister, they play together, they paint together, they watch TV together and we find that international students when they do return to their homeland, keep in touch with their homestay families and Melbourne and have many positive memories.

Government schools provide international students and their families, great values for money. Securing the future of international students is the highest priority, so students have many opportunities with the VCE and alternative certificates Victoria offers to achieve tertiary entrance at the highest level.

On behalf of all Australian local students, we say, come over here have a great time and we will look after you.

If your thinking your going to come here for study, your gonna love it.

Welcome to victoria.
